

# Montgomery County Rehabilitation & Sports Therapy, P.C.

## WELCOME TO THERAPY

1. Regular appointments 2-3 times per week are necessary for successful rehabilitation.
2. Appointments are made at specific times. Your promptness is important and we ask you to call us if you are unable to keep an appointment.
3. Each appointment will last approximately 60-90 minutes.
4. After your initial visit, your doctor will receive a complete evaluation report, followed by monthly progress reports.
5. Please provide us with your insurance coverage information. Insurance plans vary, so be aware of your coverage and deductible.
6. We ask you to stay aware of your bill. Ultimately, it is the responsibility of the patient to see that we are paid for services rendered.
7. Please talk to your therapist about the goals you would like to achieve with physical therapy. We encourage you to communicate your problems/concerns at any time.
8. Please keep us aware of your next physician visit so a current progress report can be sent. Many insurance companies, including Medicare, require that you see your physician monthly.
9. As patient feedback is very important to our growth, we consider therapy as ongoing interaction between our patients and staff.

**I have read and fully understand the above statements.**
